

*The only desktop that can print thick 10 mil tagstock is also the easiest to set up, install, and operate. Del Sol delivers rugged thermal transfer labels or economical direct thermal labels in seconds. Large media capacity, easy access loading, and user replaceable conveniences further assure maximum productivity.*

### **Fast and Friendly**

Economical Del Sol printers deliver labels and tags at 3 ips, yet are very easy to use. The stylish clamshell case features an integral tear bar for added convenience. Del Sol simplicity makes everyone a label printing expert. Del Sol provides superior reliability and performance for the lowest price.

### **Smart and Sophisticated**

Advanced memory management and large memory capacity let the Del Sol print complex labels fast. Flash memory permits nonvolatile storage of pre-imaged labels, user fonts, and graphics for instant printing. Del Sol printers can directly print PCX and BMP graphics, and the rich text font selection lets you design stunning labels for any application. Del Sol printers support all popular bar codes, including PDF417 and MaxiCode, and a unique "true dot history" algorithm assures reliable bar codes at any speed or rotation.

## Features and Benefits

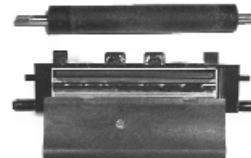

### Connectivity

Get connected quickly and easily with standard serial and parallel ports. The optional internal ethernet port adds further flexibility.

### Large Media Capacity

Spend less time swapping media and more time printing labels with the Del Sol's massive 7" label roll capacity.

### Serviceability

Quickly replace the printhead and platen without removing the printer from service.
